Parent Flyers: College Application Process

Crossland High School, Maryland

Topic: Helping Students Navigate the Path to College

Practice: Assist With College Entry

Many Crossland High School students will be the first members of their families to attend college. As many parents will not have previous experience with college and financial aid applications, staff at Crossland High School work to engage families in the process through workshops and events. This collection of flyers and announcements shows the array of college-planning activities available to students and their parents, including outlining graduation requirements, guiding parents through the college search and application processes, helping families find and apply for financial aid, exploring students' career options, and encouraging parents to join their children on college campus visits organized by the school.
