Data Collection and Goal-Setting Tool

Chicago Public Schools, Illinois

Topic: Helping Students Navigate the Path to College

Chicago Public Schools is organized into clusters of schools known as Areas, which are overseen by an Area Coordinator and receive support from district-level departments. The Area Coordinator and the Postsecondary Specialist from the Department of College and Career Preparation use this tool to identify issues a school needs to monitor and/or address to increase college enrollment.

Based on previous year performance, the Area Coordinator and Postsecondary Specialist work with the principal and counseling team to set the year's college enrollment goals and identify critical activities to support these goals (e.g., FAFSA completion; participation in college and career fairs, visits, or tours; resume completion; and parent participation in graduation requirement workshop). The Area Coordinator and Postsecondary Specialist will meet with the school two to four times over the school year to check on their progress.

Schools can adapt this tool so that it monitors the steps and activities that are most effective for its students.

(In comparison to national and District Rate)

Annual District Goal: 5% Increase

FAFSA Completion Data for 2004-2009 by School

(In comparison to District Rate *2004-2006 data self-reported from SEQ. 2009 FAFSA data as of 09/09. Final Report forthcoming 10/09)

Annual District Goal: 5% Increase

Choices Planner Usage for 2006-2009 by School

Annual District Goal: 50% Minimum or 5% Increase Above Previous Year
